# SUPPORTING SMALL BUSINESSES MAKES A BIG IMPACT!

Buying locally stimulates economies and positively impacts communities. On average, 48% of each purchase from an independent small business in your community is recirculated locally, compared to less than 14% of purchases made at chain stores. Every purchase made from a small business helps store owners pay their employees, support their families, and create vibrant communities.

But, small businesses only grow and thrive with the investment of support from customers like you!

Now is the time to support Rising Tide Capital entrepreneurs who continuously adapt to challenges while providing diverse products and essential services to their communities. Their product diversity and unique personalization allows these small business owners to help you create a gift or offer an experience that is extra special and memorable.

The businesses featured in our Impact Shopping Guide are selected from our community of Rising Tide entrepreneurs. From handcrafted dolls, personalized clothing, event planning, and marketing services to health coaching, organic sauces, and healthy meals, the guide provides a curated list of businesses for you to consider shopping with and sharing with others who may appreciate their products and services.

If you are looking for a particular product or service or want guidance on making a purchase for your company or organization, please email [communications@risingtidecapital.org](mailto:communications@risingtidecapital.org).

**Shop locally and support your local community!**

**There are 4 ways to support Rising Tide Entrepreneurs**

- 1. Buy direct:** Purchasing a product or service directly from a business is the best way to optimize earnings for small business owners. We encourage you to visit the websites of our featured entrepreneurs and support them.
- 2. Write a review:** Give a shoutout to your favorite small business and tell everyone about your experience. To increase your impact, consider sharing product photos and tagging the business in a social post.
- 3. Follow them on social media:** Learn about new products and keep up to date on the business' latest news. Staying connected on social also expands its visibility and makes it easy to tag the company and share its posts.
- 4. Tell your friends:** Referring family and friends helps uplift shop owners and drive new customers to their business.
